SOLUTION

EXPERIENCE

A NEW HIGH IN DESIGN

Greenlam Industries has been a hallmark of exceptional artistry and innovation. It is India's No. 1, Asia's largest and among the top 3 brands in the world offering surfacing solutions spread across laminates, compacts, veneers, engineered wooden floors and doors. With a presence in more than 100 countries, Greenlam carried its innovation and artistry forward with Mikasa Real Wood Floors.

Mikasa's roots lie in the true form of nature. A grandeur of wood offering the largest collection of inspiring designs with endless ways to adorn your space. Made for the first time in India, Mikasa Real Wood Floors exhibits the real art of flooring with precision and is enhanced using state-of-the-art technology. Apart from that, we understand our responsibility towards our planet. A big part of this is monitoring our CO₂ emissions.

Mikasa takes care and harvests trees right before they are about to decay and release CO₂ into our environment. This reduces carbon emissions and ensures that the harvested wood is of utmost quality. The installation process and the water-based lacquers & stains are eco-friendly, designed with a disposable system for recyclable waste. So, be assured that the wood adorning your space is as ethical as it is pristine.

MIKASA

STAIRCASE SOLUTION

Mikasa presents 'Staircase Solution', a masterpiece that elevates the true character of wood. Its exclusive designs and aesthetics come with elements which can be used for both formats of stairs i.e. classic stairs (with riser) and contemporary stairs (without riser). Mikasa Staircase Solution is an exquisite blend of technology with the philosophy of art. Mikasa converted a manual working process into an industrial product which produces a perfectly manufactured result. A staircase solution that creates a seamless transition between your floors, skirtings, and stairs by combining materials naturally to give consistency in design at different levels. Bring home this new elevation in design and aesthetics to glamorise your space.

“THE BEAUTY
OF THE
NATURAL WORLD
LIES IN THE DETAILS.”
- NATALIE ANGIER

WHY MIKASA STAIRCASE SOLUTION?

Typically, in case of an on-site staircase installation compared to regular floor laying, the customers end up:

- Wasting approx. 30-40% of material.
- Wasting 3-4 times the amount of time required.
- Paying nearly 8-10 times more for floor laying.
- Compromising on aesthetics as the accessories do not match completely with floor boards.

Hence to make the process easier, faster, and cost-effective, we present to you 'Mikasa Staircase Solution'.

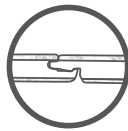

**SAVES

- Easy application on both-classic & contemporary stairs.
- Easy extendibility with **PlankLOC™**.

Mikasa Staircase Solution is available in an array of shades same as Mikasa Real Wood Floors.

Refer to Mikasa floors range to choose your shade.

STAIRCASE COMPOSITION

A close-up photograph of a wooden staircase with a light-colored wood finish. The image is annotated with orange lines and dots pointing to specific parts of the stairs. The labels are: SKIRTING (pointing to the top edge of the riser), STAIR NOSE (With PlankLOC™) (pointing to the top edge of the tread), RISER (With 4-sided PlankLOC™) (pointing to the vertical face of the riser), EDGE LIPPING (pointing to the top edge of the tread), and TREAD (With 4-sided PlankLOC™) (pointing to the horizontal top surface of the tread).

MIKASA STAIRCASE SOLUTION – OFFERINGS

STAIR BOARDS (RISER/TREAD)

For a sturdy and strong stairway, our expert craftsmen have created stair boards that are not only solid but also glorify the beauty of natural wood.

KEY HIGHLIGHTS

- All 4 sides of **PlankLOC™** lend the ease of extendibility depending on the site/staircase size.
- With **PlankLOC™**, the installer has the option to either use it as a continuous installation or to cut-off the end locking. The same plank can also be used for the riser.
- Mikasa Staircase Solution offers exact matches for all available Mikasa floors.

STAIR NOSE

Stair nose is an integral part of Mikasa Staircase Solution. It blends the staircase beautifully and provides a smooth finish to the edges between the riser and the tread.

KEY HIGHLIGHTS

- All regular planks consist of PlankLOC™ to enable easy installation.
- Outstanding edge strength with a special bevelled edge.
- Exact matches as Mikasa floors are available which are made using the same product.
- Seamless finish.
- Avoids on-site carpentry.

CLASSIC STAIRS

CONTEMPORARY STAIRS

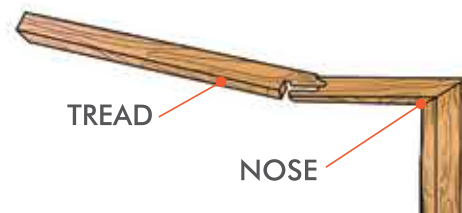

Figure 2

OAK STOCKHOLM

EDGE LIPPING

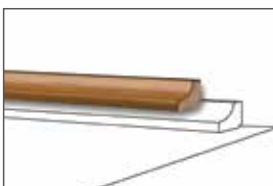

Wooden planks have rough edges and exposed joints. Edge lipping covers the exposed joints that are visible after joining the edge of the stair board & nose. This ensures that the staircase transition is seamless and looks aesthetically pleasing.

KEY HIGHLIGHTS

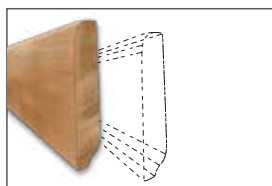

- In order to provide a better finish to the stairs, we provide edge lipping to match your stair boards & nose.
- It is durable since it's made from real wood.
- This usually comes handy where one or both sides of the stairs are exposed.

THE FINISHING TOUCH

Skirting and Beading & Quadrant give the final touch to your stairs. Skirting gives an impression of an extended floor and makes the transition from floors to stairs seamless. It gives consistency in design to further enhance the look and feel of your home. In case of an existing skirting, the removal might not be possible. In such cases, Beading & Quadrant is suggested. Both these accessories are available in a variety of colours same as Mikasa Real Wood Floors to complement your stairs.

BEADING & QUADRANT

SKIRTING

Note: All Mikasa standard accessories can be used where the stairs meet the walls.

PICK AS PER YOUR FIT

Mikasa Staircase Solution offers products that are suitable for both-classic stairs (with riser) and contemporary stairs (without riser). You can select between the two based on what suits your space and style the best.

CLASSIC STAIRS

Classic wooden stairs never go out of fashion. Their elegance and charm is evergreen. Only an expert craftsman with great precision can deliver the highest quality of this offering. A subtle, yet classy look that makes your space exquisite.

OAK SUMMER

OAK RADIANT

CONTEMPORARY STAIRS

The real sense of freedom and space comes with contemporary staircase. It allows light to travel through and makes your view mesmerising with sleek strokes of light. A breathtakingly exquisite look with a touch of calmness to modernise your space.

“ I TOOK A WALK
IN THE
WOODS
AND CAME OUT
TALLER THAN
THE TREES.”

- HENRY DAVID THOREAU
