

## Contemporary Collections: Mikasa Doors

*"2019 is all about going unabashedly bold and having a statement door is the ultimate way of adding interest to your home"*

**Parul Mittal-Director, Greenlam Industries Ltd.**

### How is the doors and windows market faring in this fiscal year & what's the latest trend at the moment in terms of technological advancements & product innovations?

The concept of doors and windows stems from the functions it serves. For a minimalist design, flush doors are the utmost choice for your home. With simple finishes that are smooth, you can have a core material to project the feeling of solid wood doors which will not be heavy on your pocket. In addition to that, since space is a constraint in many households, rooms with sliding textured wooden doors with a plain painted wall in whites, creams or beiges is a huge trend. Not only are they ideal for saving space, they also draw importance to the wall they are erected on and the light colours make the room appear more spacious.

When we talk about the larger concern, it always comes down to safety and what measures are being taken by the companies to avoid a hazard. Safety should always be the primary concern when it comes to choosing a door for the house. Design, style, and durability are secondary concerns. Doors should be sturdy and be made of high-quality material and should have the best ironmongery to protect the house.

Mikasa produces fire-rated doorsets which provide a safe exit, in case of emergency, by preventing the spread of fire and smoke and limiting it to a certain level. These doors are made with years of experience & expertise coupled with superior quality raw materials. These pre-hung, fully certified fire doorsets offer the highest level of protection to occupants, by ensuring

the perfect fit every time & guaranteed to pass all fire safety regulations when installed as per Mikasa's guidelines. Our commercial fire-rated doorsets are especially manufactured to retard the spread of fire and fumes through different sections of a building, giving the occupants enough time to get to safety. Mikasa Fire Rated doorsets are available in the options of FD30, FD60, FD90 and FD120 with resistance of 30, 60, 90 and 120 minutes, respectively. Mikasa fire-rated doorsets not only give your commercial or residential property superb functionality, they also add to the aesthetic appeal of your property.

### Doors & Windows now become a unique combination of elegance and design offering premium yet advanced safety features. Given that, what's the USP of your products?

Mikasa Real Wood Doors from the house of Greenlam Industries, provides a wide range of wooden doors which are durable, stylish and are easy to maintain. The weather in India varies from region to region and it is difficult to choose doors which can resist all weather conditions. Mikasa's all-weather doors can be used anywhere without thinking about the weather of a place. Just like a perfect package, Mikasa gives a complete door solution as doors, frames and accessories are shipped from factory as a fully furnished single doorset. It's important to know that the aesthetics and finish of these doors are extremely premium and superior and UV Lacquer and polishing line is used in the process following the latest European Practices. Mikasa Doors are easy to maintain because the cast for these doors and frames is known upfront unlike traditional methods where it is disaggregated. Being factory finished, they require no polishing or regular maintenance.

With a wide portfolio, Mikasa offers, Fire rated, non-fire rated doors and doorsets ideal for commercial and residential spaces and Speciality Doors. We recently launched Mikasa DURA doorsets which have a comprehensive 6-side protection which provide extremely high impact resistance.

### How to choose the perfect doors for different spaces in home?

Mikasa fire-rated doorsets not only give your commercial or residential property superb functionality, they also add to the aesthetic appeal of your home. If you

are looking for high-quality, cost-effective fire-rated doorsets, that enhance the style quotient of your home, Mikasa doors are the perfect option. These fire-rated doorsets come with all needed accessories, making for easy and flawless installation. For residential spaces, it's advisable to use Mikasa Non-Fire Rated Doors and Doorsets which come with all necessary accessories and are ready for installation.

Mikasa Doors are manufactured using the finest quality raw materials and accessories. While the core of the door leaf is a high-performance core filler made from triple layer density particle board imported from Germany. Be it living room, kitchen or your bedroom, these doors can be used anywhere in your home.

### 'Now doors are way more than just doors', as they become statements and focal point in spaces more than ever. Please comment?

2019 is all about going unabashedly bold and having a statement door is the ultimate way of adding interest to your home. Whether it's having a contrasting vibe or complementing your door with your existing décor, investing in premium doors always gives your home a personality of its own. You can play with colours such as bright yellows, electric blues, reds and more. In addition to the exteriors, your front door is the first thing people see when they visit you. Breaking those monotonous rules, make your front door dazzle with these colours and give your home that much needed jazz. ■
