

## KNOCK ON WOOD

### Noce Imperial

#### Price: On request

Dark coloured engineered wood floors like Noce Imperial from Mikasa highlight the beauty of metallics and shades such as malachite green and antique blue. They work wonderfully with the metallic theme. Subtle touches of premium chiaro laminates from Greenlam Laminates complemented with these dark wood floors, is an excellent way to be delicate and bold at the same time. Lose yourself in a world of antique gold foil like finish and watch your room come alive in true sophistication.

### Raw Teak - Price: On request

The raw teak laminate from New Mika laminates from the house of Greenlam Industries Ltd. is an absolute must have this season for both commercial and residential application. This wood finish laminate paired with white marble countertops give your kitchen a smoldering vibe without being visually overwhelming to the eyes. High quality yet low maintenance wood like finish and textures is the ask for the season. Raw teak when combined with pastels & light colors can give a serene view to your space.

### Oak Spring

#### Price: on request

The Oak Spring by Mikasa wooden engineered floors from the house of Greenlam Industries Ltd. helps add a gentle blonde shade to your room. Diagonal herringbone not only is an interesting pattern for your interiors but also looks catches the eye. The light toned Oak Spring is an exceptional way to add some much-needed dynamism to your décor. Perfect for application in any room, the floor comes with Mikasa's signature PlankLoc technology to help in ease of installation.
